TOUR OF BRAIDWOOD NUCLEAR POWER PLANT

For our February meeting we will have the unique opportunity to learn about the nuclear power industry and tour a Nuclear Power Plant.

This particular facility, The Braidwood Station, produces enough carbon-free energy to power 2.4 million homes and businesses in Northern Illinois and Northwest Indiana.

During lunch we will hear from members of their management team as we learn about nuclear energy. After lunch we will embark on a tour that will include stops at the control room, turbine deck, diesel generators and other vital areas inside the plant.

Our itinerary:

10:45am – Arrival (*Please park in Parking Lot D*)

11:00am – Lunch and discussion with management team

12:30pm – Tour of the reactor

2:00pm – Adjournment

Come prepared with your questions on all things related to nuclear power.
